

HOW-TO FOR DUMMIES

Create a step-by-step instruction for an activity of your choice. Be detailed and don't forget any steps. Use all 4 types of sentences: declarative, imperative, exclamatory, and interrogative.

Step 1:

Read the example below and identify the 4 types of sentences in the example above. Underline declarative sentences in *red*, imperative sentences in *yellow*, exclamatory sentences in *green*, and interrogative sentences in *blue*.

Activity: How to Ride a Bike

Do you want to ride a bike around your neighborhood on a nice, breezy day? Anyone can learn how to ride a bike! First, you must find a safe and smooth road to practice, and wear protective gear like a helmet and knee pads. Second, put one foot on the ground and the other one on the pedal. Practice pushing off and maintaining balance. Third, keep both feet flat on the pedals, and push off for as long as you can while maintaining balance. Finally, learn how to use the hand brakes to stop the bike. If you are uncomfortable at first, use your feet to stop. Always remember, safety first! Learn the rules of the road and enjoy the ride

Step 2:

Now, it is your turn! Choose any activity and write a paragraph explaining to a "dummy" how to do your activity. Don't forget to use all four types of sentences. Use another piece of paper and attach it to this one.
